

REQUEST FOR TECHNOLOGY SYSTEMS SERVICES
Request for Proposals
Bladen County Schools New K-8 School Project

Issue Date: May 12, 2023
Closing Date: May 26, 2023
Project: Tar Heel K-8 School

Bladen County Schools (BCS) requests a written proposal to secure new Technology Systems wiring and equipment services for Tar Heel K-8 Replacement School. BCS is committed to constructing this facility to optimize system performance, effectively, efficiently and in accordance with BCS guidelines. This proposal will include services for the construction phase, testing phase, and warranty phase activities. BCS does not pay for mileage, lodging, or meals.

The Contractor shall provide the Technology Systems for the new single-story (87,000 sqft.) school space. Contractor shall use this Technology Narrative, Electrical Prints and additional information provided to develop a cost for a complete and operational technology system outlined in this document.

The Contractor will provide a bid for this project, once the bid has been reviewed and leveled, the winning contractor will be part of a delegated design. Delegated design is seen as a design collaboration and should not be confused with design-build or design-assist. Design-build is a project delivery method where the owner signs a contract with a single organization that will both design and installation. Some quantities have been provided for the Technology Room Build Out to provide bidders with a level understanding of the scope.

Project Description

Location: Tar Heel K-8 Replacement School,
14888 NC-87, Tar Heel, NC 28392
Project GSF: 83,348
